

A collaborative approach to responsible resource development of the Duvernay formation in the Kaybob area

*John Williams,
Executive Vice-President Kaybob Region*

Since 2013 the Fox Creek Operators Group (FCOG) has provided a forum to encourage a collaborative approach to responsible development of natural resources in the Duvernay formation of the Kaybob area. FCOG consists of seven oil and gas operators:

- Chevron Canada Limited
- Encana
- Murphy Oil Company Ltd.
- Paramount Resources
- Repsol Energy Canada Ltd.
- Shell Canada Limited
- XTO Energy Canada Inc.

In this section, we will trace the evolution of FCOG, its collaborative approach and the resulting impact FCOG has had on; identifying operational efficiencies, the reduction of members environmental footprint and in delivering long-term value in the Kaybob region.
