

General Poster Information

The in-person poster sessions will take place June 21st to 22nd at the TELUS Convention Centre on the exhibit floor. The virtual posters will be available for the full conference and on-demand through December 31, 2022.

Registration

All presenters must be registered Convention Delegates. Please [register online](#) to confirm your placement in the program; use your abstract ID as your promo code to receive the presenter rate (does not apply to students or in-transition/retired)

Virtual

GeoConvention 2022 is being delivered in a hybrid format. All presenters (both oral and poster) are required to prepare a video recording of their presentation.

Poster presenters will prepare a 5-minute (maximum) overview recording of the poster where you walk through the slides or PDF/image and upload this recording to the [Abstract Manager](#).

- On your dashboard, click the gear icon next to your paper and select "Edit Abstract/Presentation Upload"
- Navigate to the bottom of the page and click "upload file" under "Presentation Recording Upload"

Tools on how to record the presentation are available on the [Presenter Resource Page](#). Recordings are due by May 27 and can function as a trial run for your in-person presentation.

We will ask that you check in on your presentation after the conference to see what questions have been asked via the chat window within the virtual conference platform. Within the platform, you can follow up with the chat questions in the pane or direct one-on-one conversation through the networking function

In-Person

Hanging

The posters will hang for the entire conference and must be posted by 9am Tuesday morning. Check in at the registration desk. Provide your name to the people working the desk and they will check you off the list and confirm your board number. The ideal time to hang your poster is Tuesday morning, June 21, 7am – 9am, our poster chair will be available during this time to assist.

Presentations

Presentation times are scheduled from 9:35am - 10:15am and 2:40pm - 3:15pm and during the networking, 4:30pm - 6:30pm (Tuesday only). You are expected to be at your poster for all poster breaks during your assigned day for conversation; you will only be asked to formally present once, however.

Poster Presentation Format

Presenters are to prepare a 5-minute Mini-Oral presentation to be delivered at the scheduled time for the judges. Poster presenters are also encouraged to present less formal presentations throughout the duration of the day to other interested delegates.

Poster Layout

Poster display panel dimensions are 4 ft. (vertical) by 8 ft. (horizontal). **If you need two panels, please advise Shannon at the email address below.**

Your poster should include both the title and authors of your presentation. Make the poster easy to follow in case it is viewed when you are not present. The poster should have a clear starting and ending point. Arrows or numbers should be used to define poster progression and should follow left to right, top to bottom rules.

Advertise

We encourage you to promote your participation on social media to your respective networks.

Poster and Oral Presentation Selection

If you select to present an oral and poster presentation, the organizing committee will work with the schedule to ensure your presentation times do not overlap. **If you sign up to present both, please note, you are agreeing to present both the oral (slides) presentation and the poster presentation in both the in-person and virtual formats.**

We thank you for your contribution to the technical program and look forward to your participation at the convention.
