General Oral Presentation Information

The in-person oral presentations will take place June 17 - 19 at the TELUS Convention Centre per the conference program. With GeoConvention 2024 having a post-conference on-demand option, the live delivery of your presentation will be recorded (unless you opted out when submitting your abstract).

Registration

All presenters must be registered Convention Delegates. Please register online to confirm your placement in the program; use your abstract ID as your promo code to receive the presenter discount (does not apply to students or in-transition/retired). Please note that the presenter discount is applied to the active delegate pricing (it is not a fixed price point); registration before the early bird deadline is highly suggested to gain the lowest possible rate.

In-Person Presentation

Schedule

Generally, each presenter will be scheduled for a total of 25 minutes (20 minute presentation and 5 minute discussion period). Please keep in mind that the time schedule is fixed so that attendees may move between sessions. Certain keynote presenters may have a double time slot.

There will be a Speaker's Breakfast each morning of the conference for all speakers presenting on that day, 7:00am - 8:00am in the Exhibits pre-function area (second floor, north building, past registration). It is requested that you attend so that you can:

- meet your Session Chairs
- meet the other presenters in your session
- coordinate any final presentation details
- provide your session chair with a bio to be read out when introducing you to the podium

Please be present at your session room at least 15 minutes before it starts to become familiar with the layout.

Presentation Format

Presentations should be prepared in 16:9 format, in PowerPoint, a template is provided, should you wish to use it (not required).

Presentation management will be handled by your chairs. It is suggested that all presenters bring their presentations with them on USB, copy the presentation onto the podium computer and run from there. Presenters will have access to their presentation space at least 30 minutes before each session starts. As an additional backup, it is recommended that you save your presentation on an accessible cloud drive as a backup to your USB.

Workstations will be available each day of the conference, 7am - 6pm at the east end of the exhibition foyer area. These computers can be used for practicing and last-minute touch-ups.

Advertise

We encourage you to promote your participation on social media to your respective networks.

Poster and Oral Presentation Selection

If you selected to present an oral and poster presentation, the organizing committee will work with the schedule to ensure your presentation times do not overlap. **If you signed up to present both, please note, you are agreeing to present both the oral (slides) presentation and the poster presentation formats.**

We thank you for your contribution to the technical program and look forward to your participation at the convention.
